

**Lecture Notes of the Institute for Computer Sciences,
Social Informatics and Telecommunications Engineering**

The LNICST series constitutes the publication platform for conferences, symposia and workshops sponsored by the Institute for Computer Sciences, Social Informatics and Telecommunications Engineering (ICST).

ICST is a non-profit society that aims to promote research and development in information and communication technologies and their advancement in business engineering and other fields of applications.

The scope of LNICST spans the whole gamut of topics covered by ICST, namely:

- General Computer Science
- E-Economy
- E-Medicine
- Knowledge Management
- Law, Forensics
- Multimedia
- Social Informatics
- Software and Hardware Systems
- Telecommunications Engineering

The type of material published includes proceedings (published in time for the respective event) as well as post-workshop proceedings (consisting of thoroughly revised and/or extended full papers).

Detailed information on LNICST can be found at:
www.icst.org and www.springer.com/lnicst
